The Longopac system is available in a variety of designs to suit different purposes. There are ready-made solutions with stands to be used in kitchens for instance, cabinets with cassette holders and waste bins. The Longopac system is flexible and can be built into existing cabinets and behind sorting walls. Paxxo also offers metal detectable solutions for environments that require it.

Hygienic • Efficient • Environmentally friendly

The Paxxo Longopac® system enables smarter waste handling and innovative packaging solutions for a better working environment for professionals worldwide.

Longopac is hygienic since the bags are replaced and sealed from the outside, without any contact with the waste.

Longopac is based on an extremely thin and strong 3-layer polyethylene material. The bagging material is folded into compact cassettes in specifically developed machines.

Longopac gives advantages in the form of efficient and time saving handling, low material consumption and low transport costs.

Longopac is available in many different colours and strengths as well as in Mini, Midi and Maxi size.

Longopac is certified to be used in different kinds of handling with-in: Odor Control, Biodegradable, Food, ESD, Sterile as well as with different strengths on the bag cassette.

Standard colours

	2		7
	3		8
	4		

The Longopac bag cassette comes in a variety of strengths and colours.

THIS IS HOW IT WORKS

Step 1:

The bag cassette is sealed at one end with a cable tie. When the bag starts to fill or you simply want to change it, you pull the bag down to feed new material out of the cassette.

Step 2:

To seal the bag, use a cable tie at the top of the waste.

Step 3:

Attach another cable tie approx. 5cm above the first cable tie and cut the bag material between them.

The whole process takes less than

30
seconds!

PAXXO AB

Paxxo is a Swedish based packaging company with more than a 45-year history. Our business concept is to manufacture the unique endless bag system Longopac that, thanks to innovative, smarter waste management and packaging solutions, creates a better working environment in many industries.

Our success has been possible because our products offer rational handling, a better working environment and low environmental impact. The unique Longopac system is today sold by certified partners in more than 45 countries.

Headquarters for sales, production and R&D is located in Malmö, Sweden. Sales office and distribution warehouse is located in Atlanta, Georgia, USA.

PAXXO is certificated in compliance with ISO 9001 and ISO 14001. We are continuously making our company greener and lowering our products' environmental impact.

Since 1992 Paxxo has a policy of donating 1 % of profits after taxes to charity.
